

I am writing in regard to the expansion of LPFM and in turn, downsizing of current FM translators.

Air 1 is a positive and necessary radio station that changes, encourages and promotes Christian values to hundreds of thousands of listeners every year.

Depleteing this station would negatively

affect a plethora of people who thoroughly enjoy and grow from the music and content of what Air 1 works so hard to achieve.

I ask you to take in to consideration the importance of this positive type of broadcast in our society today and reevaluate the pros and cons of your business decision.

May God continue to bless you all.
